LED rear lights

A brilliant sign of innovative technology. Powerful LED light rods ensure energy savings and improved visibility for traffic following behind. For vehicles without Xenon lights.

Installation duration	on request
Available for	1 Series (five-door) from 09/11

Please note that the information provided is not binding. Further costs may be incurred by installation. Depending on the equipment version of your BMW, installation times may vary and additional assembly parts may be required. Detailed information is available from your local BMW Dealership.
