Technical data

Fueltype	Diesel
Enginepower	218 hp (160 kW)
Displacement	1995 ccm
Emission*	58.9mpg / 126.0g/km

* The fuel consumption given in miles per gallon and the CO2 emission given in grams per kilometre represent the combined values. In line with new European standards, the range shown displays the fuel consumption and CO2 values from the smallest to largest wheel size available on the selected model. Values in brackets are for the selected model with automatic transmission.

Further information about the official fuel consumption and the official specific CO2 emissions for new passenger cars can be obtained from the 'The Passenger Car (Fuel Consumption and CO2 Emissions Information) Regulations' <http://www2.dft.gov.uk/pgr/roads/>
